# Gaurav Jayasawal

**Software Developer**        **Co - founder and VP of Coding Hub, Plattsburgh**

/jgaurav6          www.gauravjj.com          jgaurav6@gmail.com          /gauravjj

---

## 🎓 Education

**State University of NY, Plattsburgh**        Expected: May 2019
• B.S. in Computer Science        **CGPA: 4.0/4.0**
• Honors: Academic Excellence in CS award

## Work Experience

**Co-Founder, VP, Lead Developer**        Sep 2018 - Present
*Coding Hub, Plattsburgh, USA*

• Lead an agile team of 6 developers to complete 4 major projects in the span of 3 months to assist students on campus

• Spearhead club projects by creating tasks to completed by the next sprint on Asana and assign it to the team

• Conduct bi-weekly stand-up meetings and administer Asana and GitHub repositories as the scrum master

**Full Stack Developer Intern**        Jun 2018 - Aug 2018
*Wizn Systems, Bangalore, IN*

• Integrated APIs into an Android app to detect required network details of clients, saving the company hours of site survey time

• Planned and built 2 fully responsive websites during the internship using CSS, JS to showcase the company's products and services

• Developed a logger website by making REST APIs with node and express js to fetch and display server logs for rapid debugging

**Designer / Android Developer**        Jan 2018 - May 2018
*Deliver It (Independent Study), Plattsburgh, USA*

• Brainstormed an idea and assembled it into an android app aiming to optimize delivery services globally

• Successfully put together a minimum viable product within the study period and received a grade of A in the class

**Software Developer Intern**        Jun 2017 - Aug 2017
*Technorio Inc, Kathmandu, NP*

• Cloned an Android app from scratch within 2 days and added additional features

• Worked in a team of 5 developers using GitHub for coordination

## </> Technical proficiencies

**Languages**: Java, Python, PHP, Kotlin, C#, C++, Node, React JS, HTML5, Object Oriented Programming, MySQL, Postgre SQL, Dart - Flutter, HTML, JS, CSS

**Other**: Android, Prototyping, Communication, Time Management, UI/ UX Design, Teamwork, Leadership, Cross-browser compatibility, Firebase Firestore, Realtime DB, Mongo

## 📊 Projects

**Shuttler - Android App**
(App to track college shuttle)
**Lead developer and scrum master**

•Wrote clean and maintainable code in Kotlin to build a robust app

• Built APIs in Node JS for fetching user lists for notification

**Tutor Rater - Website**
(Website to review course tutors)
**Back-end Developer and DBA**

• Managed the back-end using Node JS with Mongo DB

• Understood the advantages of relational and non-relational DBs over each other

**Coding Hub - Website**
(Website to showcase the club's projects)
**Lead developer and scrum master
(www.coding-hub.com)**

• Completed the development of a fully functional react js website from scratch in 1 day by pair programming.

•Built reusable components with SASS to create a beautiful website for the club
